ABOUT**

AS PART OF THE ONTARIO GOVERNMENT'S SMART METER PLAN, YOUR SMART METER IS SCHEDULED FOR INSTALLATION IN 2009/2010. THIS IS AN ADVANCE NOTICE OF THE INSTALLATION. YOU ARE NOT REQUIRED TO DO ANYTHING AT THIS TIME.

→ SMART METERS

SEE REVERSE FOR MORE INFORMATION

BY THE END OF 2010, EVERY HOME AND SMALL BUSINESS IN ONTARIO WILL BE EQUIPPED WITH A SMART METER, PROVIDING CONSUMERS WITH AN IMPORTANT TOOL TO HELP MANAGE THEIR ELECTRICITY USE.

HOW WILL MY SMART METER BE INSTALLED?

- You'll receive a visit from one of our service professionals.
- If your meter is located outside, you don't need to be at home.
- We'll need to turn your power off for approximately 10 minutes (under normal conditions) and apologize in advance for any inconvenience.

Once installed, we'll leave a detailed guide explaining how SMART METERS work and how you can take advantage of smart metering. Your smart meter will continue to work just like your current one with no immediate change to your electricity rates. FOR NOW, NOTHING WILL CHANGE. You will be notified in advance of the availability of Time of Use Pricing.
